Topic: Did you *really* write PGP?

PRZ,

Some guys from the Secret Service came to see me about the Death Threats I've been sending you.

It's pretty funny that after all those years of persecuting you, the GuberMint is now paying these guys to protect you, eh?

They sure looked at me funny when I told them that it was all in good humor, and that I wouldn't dream of doing anything bad to the guy who wrote PGP.

Are you *sure* you wrote it? They don't seem to think so...

Do you play the saxaphone? They said you play the saxaphone.

Anyway, say "Hi!" to Buddy for me...

Your Pal and CoConspirator, Toto

IM!SHO, Jim is committing the ultimate faux pas in federal court  
--the

issue of 'conspiracy' as it implies the judge is part of the  
conspiracy.

of course, I dont consider the issues as conspiracy anyway --they  
are

nothing more than a government abusing its powers and the fact the  
citizens have abrogated their own rights by failing to make  
government  
accountable

## *The Revolution is NOW!*

An increasing number of citizens are sick of the shit being forced on them by the armed thugs who act under the guise of government authority to enrich and empower themselves and their coconspirators, at the expense of those citizens who attempt to lead ethical, law-abiding lives.

Burdened by an increasing number of oppressive laws and regulations which often turn out to be the result of reactionary measures to activities promoted by their own paid government shills, or self-serving measures arrogantly promoted as being designed to protect us from ourselves, an increasing number of citizen warriors who are capable of standing firm against the oppression of government dictators have begun acquiring the education and tools necessary to fight oppressive governments in both MeatSpace and in CyberSpace

In an age when those who quote the Constitution and the Bill of Rights are profiled by the armed thugs in power as potential terrorists whose basic human rights cease to exist, in an age when those with the most political power under their moral high-horse can influence legislation which is used to imprison citizens for possession of great works of art, in an age when average citizens live in fear of the condition they will be left in when the Tax Dictators are done with them... is it any wonder that more and more average people are beginning to realize that the revolution is NOW!

*"Those who make peaceful revolution impossible will make violent revolution inevitable."*  
~ John F. Kennedy

America's founding fathers, as well as many leaders who followed them, recognized that even the most peaceful of humans will engage in violent revolution when the charlatans who claim dominion over the citizens' lives leave them hung out to dry and twisting in the wind, under the cover of legal authority.

In an age when arrogant political criminals are not content to have their head up their ass, but demand the right to monitor the private areas of every human on the face of the earth, it is time for the citizens to open the eyes of the oppressors of human rights, and rip them a new asshole if they continue in their efforts to turn citizens around the face of the earth into roadkill on the imaginary Information Superhighway.

The armed thugs and criminals who feel free to disarm those who would oppose them, while preparing a plethora of minor government agencies with assault weapons to suppress any and all opposition to their criminal acts, will continue their headlong rush to omnipresent fascist control over their fellow humans, unless it is made clear that they risk being run down like a dog by freedom loving citizens who will make every effort to guarantee that they will be drawn and quartered for their crimes.

Unless those who usurp the human rights of others in order to empower themselves are forced to face a gut check by citizens who make it plain that they may well wake up with their dick in their mouth if they refuse to hold themselves accountable for their actions, the incremental erosion of human rights will continue across the face of the globe.

It is time for the citizens to take a bite out of crime at the highest level, and make it plain to the rogues and charlatans in power that the tire marks on the carcasses littering the road to global communication will be those of the citizens, on the decaying remains of MeatSpace dinosaurs who are scheduled for deletion from the evolutionary scheme of InterNet Free Terra.

If those who strive to censor and oppress the free Netizens who take up tools of freedom and privacy which have been declared illegal arms in CyberSpace realize that the alternative of their targets of oppression is to become hackers in meatspace, then they will also realize that they will have to spend the rest of their lives being afraid to sleep unless they cease and desist in their crimes against humanity.

If the MeatSpace dinosaurs of the fading political systems fail to recognize that it is time for a change in the distribution of power and wealth, then "we the people" need to ensure that they understand we are willing to switch those currently in power with citizens with the balls to defend freedom, privacy and human rights.

The citizens of the world are targeted \*today\* for worldwide surveillance, control and oppression.

The Revolution is NOW!

The Revolution has \*always\* been NOW...
